- Alphabet
- Colors
- Numbers
- Shapes
- Scenic images (get creative!)

## FEATURES OF THIS RESOURCE:

- Errorless file folders
- Errorless task boxes
- Cut and paste worksheets
- Coloring pages

# WHAT TEACHERS ARE SAYING

As a Pre-K teacher, I love having these activities for students to be sure they aren't making mistakes while at the same time building the idea/concept of "independent" work time. They love completing these and showing me what they've done. :)

This is a great resource for my students who are working on basic academic skills. I love that it is errorless so they feel successful at the end of the activity no matter what.

This was very easy to use and set up for my more involved students. They were engaged and able to complete their work tasks with minimal behaviors.

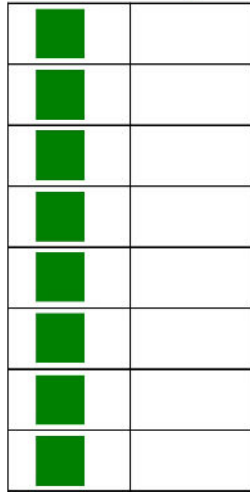

# SAMPLE PAGES:

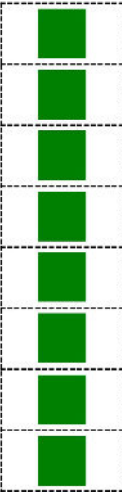

Coloring page

Name \_\_\_\_\_

# Square Errorless

square

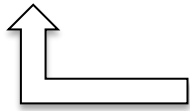

©Supporting Special Learners

Square  
Errorless

Cut out and glue onto  
front of file folder.

Cut out and glue onto tab  
of file folder

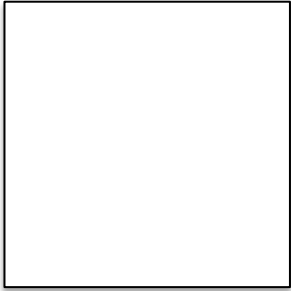

Glue the first two pages to the inside of the file folder (two options: with and without visual prompt)

Laminate file folder.

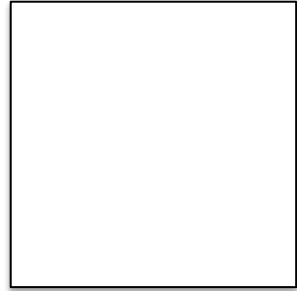

Cut and laminate individual images and attach hard velcro to the back and soft velcro to the inside of the file folder.

Enjoy!
